Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 26 October 2006 has been entered.

Remarks

2. The following is an examiner's statement of reasons for allowance:

Applicant's remarks/arguments, filed 26 October 2006, have been carefully reviewed and considered, and in light of the remarks/arguments, all pending claims (1-5, 7-21 and 23-35) have been reconsidered and are deemed allowable primarily because the references of record, singly or in combination, cannot anticipate or fairly suggest the limitations in claims 1, 24 and 30 without excessive hindsight reasoning based on applicant's own disclosure.

More specifically, claims 1 and 24 require the following combination of process steps: selectively removing (or processing) a portion of the protective layer to expose the conductive element, which is part of a topographically substantially flat substrate surface; selectively electrolessly depositing a metallic passivating layer onto the exposed conductive element; and removing a portion of the protective layer after deposition such that stray metallic passivating material is also removed.

Claim 30 is drawn to a system set up specifically to perform the method of claims 1 and 24, accordingly the system cannot be fairly suggested by the references of record because the method in claims 1 and 24 cannot be fairly suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lex Malsawma whose telephone number is 571-272-1903. The examiner can normally be reached on Mon. - Thur. (4-12 hours between 5:30AM and 10 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
